PROFESSIONAL SUMMARY

Software Developer with 1+ years of experience developing scalable web and mobile applications using React, Next.js, TypeScript, and React Native. Experienced in building responsive interfaces, integrating REST APIs, implementing authentication systems, and optimizing application performance. Strong background in modern frontend architecture, state management, and delivering production-ready features in collaborative environments.

EXPERIENCE

Edutechs — Junior Software Developer

August 2025 – September 2026

- Developed and maintained production-grade web and mobile applications using React, Next.js, TypeScript, and React Native.
 - Implemented Firebase authentication and real-time data synchronization, improving application reliability and user experience.
 - Integrated REST APIs and optimized frontend performance through efficient state management and reusable component architecture.
 - Built responsive UI components using Tailwind CSS and modern frontend practices across multiple platforms.
 - Collaborated with designers and backend developers to deliver scalable product features.
-

ACHIEVEMENTS

- Developed 3+ production-ready applications using React ecosystem.
 - Built reusable component systems reducing development time.
 - Implemented authentication, API integration, and real-time features.
 - Solved 850+ competitive programming problems and participated in 140+ [Codeforces](#) contests, strengthening algorithmic thinking and problem-solving skills.
-

TECHNICAL SKILLS

Frontend:

React, React Native, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS

UI Libraries:

Shadcn UI, Ant Design, Material UI, Bootstrap

Backend & Database:

Node.js, NestJS, Express, Firebase, Supabase, MongoDB, MySQL, Convex

Tools:

Git, GitHub, Vercel, REST APIs, Redux Toolkit, Zustand

PROJECTS

Quizzen AI — Web App | [Live Website](#) | [GitHub Repo](#)

React • TypeScript • Firebase • Tailwind CSS • Shadcn UI

- Developed an AI-assisted quiz learning platform that enables users to configure, attempt, and review interactive quizzes with timed sessions.
- Implemented Firebase authentication workflows including email/password signup, Google login, and protected routes.
- Built reusable feature-based React architecture with responsive UI components and maintainable module organization.
- Designed quiz workflows with progress tracking, result analysis, answer explanations, and PDF export functionality.

Handy Kit — Web App | [Live Website](#) | [GitHub Repo](#)

React • TypeScript • TanStack Router • Tailwind CSS • Shadcn UI

- Built a browser-based productivity toolkit containing 14+ developer and everyday utility tools.
- Implemented scalable routing architecture using TanStack Router with automatic code splitting.
- Developed reusable UI components with responsive design and theme support.
- Integrated EmailJS contact workflow and optimized lightweight client-side utilities.

Digital Event Scheduler System — Full Stack Web App | [Live Website](#) | [GitHub Repo](#)

React • TypeScript • Firebase • Supabase • Zustand • TanStack Router • Tailwind CSS

- Developed a university event management platform for organizing events, venue scheduling, approvals, attendance, and administrative workflows.
- Built role-based dashboards with authentication-protected routes, event CRUD operations, approval workflows, user management, and analytics dashboards.
- Implemented calendar-based event visualization, notification workflows, multilingual support (English/Bangla), and responsive UI across devices.
- Integrated Firebase, Supabase, EmailJS, and modern React ecosystem tools to deliver a scalable and maintainable application architecture.

EDUCATION

Gopalganj Science and Technology University

Degree: B.Sc. in CSE | CGPA: 3.18 | 2019 – 2024

LANGUAGES

Bangla(Native) | English(Comfortable) | Hindi(Comfortable)
